

UP IN AIR OVER THE DEAN BILL

Vote Will be Close and Both Sides are
Claiming Victory This
Afternoon

Balking Cleveland Representatives Have Decided
to Support Measure—Capital City Filled With
Visitors All Watching the Outcome—
Legislators Now Debating.

Columbus, Feb. 21.—The balking
Cuyahoga legislators today decided to
vote for the Dean bill this afternoon
and take a chance on favorable action
in the senate on the Stockwell bill.
Wets and dries are up in the air over
the fate of the Dean bill.

Columbus, Feb. 21.—Announcement
that there was to be another meeting
today after the session of the senate
the Cleveland House delegation caucus
broke up at 1 a. m. this morning.

The ostensible reason is given that
the members wish to ascertain what
action that body will take upon the
Stockwell direct senatorial election
bill, the passage of which is demanded
under threat of holding up the Dean
bill. The members refused to disclose
what agreement had been reached at
the meeting last night, but there is a
general belief that they will not hold
out to the extent of defeating the bill
if their demands are not conceded.

With the final roll call but a few
hours away, the supporters of the
Dean bill to amend the county local
law are today claiming a victory.
In fact, however, their figures show
but a slight excess over the required
constitutional majority of 60 votes.

This margin is subject, to use a
common expression, to the accidents of

fire, flood, weather and human frailty.
The opposition marshaled by the
organized temperance forces, strenuously
insists that the friends of the bill have
not now and never had at any time the
requisite 60 votes.

As between the two, it can be said
that the issue is doubtful in the ex-
treme. Competent persons, free from
bias and interest, have made numerous
polls. No two of them, it may be said,
are the same, which is simply proof
of the dubiety of the situation.

There is one certain absentee, Rep-
resentative Robert Billingslea, of But-
ler, a supporter of the bill. No one else
has been excused. With this as a basis
there are reckoned eight members who
are likely to vote for or against the
bill.

Truth requires the statement that
the indications are that five of them
will be more inclined to support the
measure than to oppose it. So close
is the figuring that some of the calcu-
lators say that it may require the vote
of the Speaker of the House to decide
the outcome of the call.

This will be an unusual circum-
stance, for by custom the Speaker is
excused from voting unless it is his
wish to be recorded.

the late Marcus A. Hanna for the

Many Cities Will
Be Made Villages
If This Law Passes

Representative Connaughton of
Auglaize county has introduced a
bill in the house making 10,000 the
population of a city, and reducing
all present Ohio cities having less
than that number to the grade of
villages. If the bill becomes a law
the following cities will join the vil-
lage class: Ashland, Athens, Dar-
lington, Bellefontaine, Bellevue, Bow-
ling Green, Bucyrus, Canal Dover,
Circleville, Conneaut, Coshocton, De-
laware, Delaware, Delphos, East
Cleveland, Fostoria, Fremont, Gal-
ton, Gallipolis, Greenville, Jackson,
Kenton, Madisonville, Martins Ferry,
Mt. Vernon, New Philadelphia, New-
burg, Niles, Norwalk, Painesville,
Ravenna, St. Bernard, St. Marys, Sa-
lem, Sidney, Troy, Urbana, Van
Wert, Wapakoneta, Washington C.
H., Wellston, Wellsburg, Wooster,
and Xenia.

It is claimed that the great ex-
pense of a city form of government
over the village, will make the pro-
posed change popular in most of the
places which will be reduced, in case
the bill passes.

Predicts Treaty Will
Pass the Senate

Washington, Feb. 21.—Senator Hy-
burn of Idaho has taken the whole
burden of delay for Canadian recip-
rocity in the senate onto his own
shoulders. His state is solidly against
the treaty and he will fight it with
every weapon he can find. Senator
Carter of Montana visited President
Taft today and then predicted the
treaty would pass the senate. Rep-
resentative McCall of Ohio, who has
the house bill, makes the same prediction.

GOTCH LOSES HANDICAP MATCH

Boston, Feb. 21.—Frank Gotch of
Kansas City, champion heavyweight
wrestler of the world, lost his handi-
cap match to Americus of Baltimore
here last night. He agreed to throw
Americus twice in one hour, but gained
only one fall after 40 minutes and 25
seconds. Americus succeeding in
standing off the champion for the
rest of the hour.

ARE READY FOR LONG STRUGGLE

Kansas City, Feb. 21.—The New
York Central boiler makers' strike will
probably be confined east of Chicago,
according to International President
Milkien. He says they are ready for
a long struggle and are merely de-
manding that the road abolish piece

WILL RECRUIT CO. G. 4TH REGT. TO 60 MEMBERS

Efforts are being made along definite
lines by those qualified by inclination
and experience to build up Company
G, Fourth Regiment, O. N. G., to the
point of members and efficiency that it
will be a credit not only to itself but
also to the Fourth Regiment and the
City of Newark, and these efforts
should meet with encouragement of
the young men of the city, as well as
their parents and employers.

Just before the Spanish war in 1898,
Newark boasted two crack organiza-
tions, one of infantry and one of artil-
lery. These were Company G, Infan-
try, Captain Cary Crawford, which
became a part of the Seventh Regiment
during the war, and Battery G, com-
manded by Captain W. C. Miller. Both
of these organizations enlisted, and by
previous military training gained in
the National Guard, soon became effi-
cient soldiers. It is now a high honor
to have been a member of either the
company or battery.

The annual state and federal in-
spection of Company G will be held in
March, the former on March 6, and at
both of these inspections every mem-
ber must be present.

The company is now composed of
forty members, including officers, and
is anxious to raise this number to six-
ty. Sergeant Warren Jones has been
First Sergeant and George Deedim is
now Quartermaster. Sergeant. These
positions are the most responsible in
the company and these men are qual-
ified by ability and experience to pro-
perly fill them. Both Deedim and
Jones are Spanish War Veterans, Ser-
geant Jones having served in the Phil-
ippine Islands.

Sergeant Groves of the United States
army visited the armory last night
to instruct the local company in
military tactics.

TRIUMPH FOR UNCLE JOE.
Washington, Feb. 21.—The re-
mainder of the present house session
will be a personal triumph for Uncle
Joe. The gag rule adopted yesterday
seems to give the Democrats the bal-
ance of power, but to move to suspend
the rules a member must first secure
Uncle Joe's recognition. The stand-
patters are wearing broad smiles to-
day.

STRIKERS

Being Replaced by Men Imported
From Chicago and Tie-Up of
Repair Shops May Follow.

Cleveland, Feb. 21.—The New
York Central brought 50 non-union
boiler makers here today from Chi-
cago, to begin their attempt to break
the boiler makers' strike. The officials
announce that within a week
they will have replaced the strikers
all over the system. The boiler
makers say that unless the road
comes to terms in a few days the ma-
chinists and blacksmiths of the sys-
tem will be called out, tying up the
engine repair shops.

WOMAN TESTIFIES AGAINST HUSBAND

New York, Feb. 21.—Testifying in
defense of former state senator Frank
J. Gardner, at his trial for attempted

Hall and Gardner met and the bill was
not mentioned during the conversation.

SPECIAL GRAND JURY BEGUN ITS WORK TUESDAY

The members of the special grand
jury convened on Tuesday and after
receiving instructions from the court
began their deliberations at one
o'clock. The court in charging the
jury, told them that their duties
were to inquire into evidence and
issues committed to them by the body
of the county of Livingston and report
their determination to the court in
the form of indictments. That they
should not go into the general busi-
ness of inquiring into all crimes and
offenses committed within the county,
but as to such matters as may be
sent to them by the court before them
by the prosecuting attorney, who rep-
resents the state in the matter. That
no indictments should be presented
except upon legal evidence which
would be competent and admissible if
the accused persons were brought to
trial before a petit jury. If there is
sufficient evidence presented to war-
rant a defendant in being placed upon
trial to a petit jury, then indictments
should be found. That no one should
be presented through ill will or malice,
and no one be presented through fear,
favor, affection or reward, or the hope of reward.

The court called the attention of
the jurors to the fact that their oath
requires secrecy and not divulge any-
thing as to the proceedings unless
called upon in a court of justice to
make disclosures.

the minds of the people.

of the home of Miss Helen Gould in
New York last week. The brick hit

BATTLESHIPS BUILT IN UNITED STATES MAY BE USED AGAINST US SOMETIME

Cleveland, Feb. 21.—A Washing-
ton dispatch to the Cleveland Press
today says: Two battleships, more
powerful than any in the United
States navy, are being built in this
country for Argentina. The plans,
drawings, naval secrets, patent de-
vices and expert advice of our naval
constructors are all at the command
of Argentina. This agreement was
entered into by the state department
in order to land the contract for the
building of these vessels in America.
The chief beneficiary of the contract
is Charles M. Schwab of the Bethle-
hem Steel Company.

Secretary of State Knox was form-
erly Schwab's attorney. Knox has
declined to make any explanation as
to why such an agreement was made
by the state department and refuses
to discuss the matter.

Once these ships are built there is
nothing to prevent their being used
against us. They could be sold by

Argentina as soon as finished. Two
ships built in this country for Russia
12 years ago are now in the Japanese
navy.

Influence of the State Department Secured Contracts.

New York, Feb. 21.—Admiral Gar-
cia, chief of the Argentina commission
in charge of the building of the Ar-
gentina battleships, says it was the
influence of the state department
that awarded the contracts to this
country.

He says: "The United States min-
ister, Mr. Sherrill, at Buenos Ayres,
obtained remarkable concessions
from your government. We are free
to demand all information, draw-
ings, devices or expert advice that
your navy possesses. We can also
send your proving grounds to test our
guns and have been allowed to place
our naval officers aboard your ships to
study your navy and methods. These
new ships will be more powerful than
any in your navy."

MASCAGNI GROWS MORE CONCEITED AS TIME PASSES

Rome, Feb. 21.—Mascagni, whose
production of Yasael for the United
States now seems unlikely, grows more
egotistical every day. A few days ago
his small daughter went to him and
said: "People are saying that I am
very like you."

Mascagni looked very hard at her and
replied: "Child, for your age you are
most presumptuous."

On another occasion recently his son
was practicing the violin. Mascagni
listened to him for some time and then
said: "Today you show the marks of a
Mozart. But wait a little and practice
hard and before long you may come
when you will be made your father."

ALDRICH'S ACTION IS A SURPRISE

Writes Pres. Taft That
He Favors Canadian
Trade Treaty

TESTIMONY HAS BEGUN

Before Senate Committee on
McCall Bill—Paper Maker
Talks on Wood Pulp.

Washington, Feb. 21.—Senator
Aldrich, chairman of the finance
committee of the senate, has written
to President Taft that he favors the
confirmation of the Canadian reciprocity
agreement.

Whether the letter makes promise
of assistance in getting action in the
senate at the present session has not
been disclosed, but senators who
have seen the letter intimate that the
senator will do all he can to aid the
president in carrying the program
through.

An announcement that Senator Ald-
rich, whose name is attached to the
existing tariff act, had subscribed
to the terms of the reciprocity
agreement with Canada, was received
with great surprise in the senate, es-
pecially by the standpat senators who
have come out against the agreement
on the ground that it is not in har-
mony with the tenets of the Republi-
can party on the subject of protection.
Some of these senators were loath
to believe the report that the
chairman of the finance committee,
who in tariff fights has always been
found on the side of protection for
every industry, whether manufactur-
ing, agricultural or mining, has in-
dorsed the president's program for
freer trade with Canada.

No announcement was made at the
White House in respect to the letter,
and there was considerable specula-
tion as to whether the message would
be made public.

Early in the present session Sen-
ator Aldrich was compelled to leave
Washington on account of his health.
He is spending the winter at Jekyll
Island, Ga., and, although much bet-
ter than when he left here, it is not
likely he will be able to take any
further part in tariff legislation, for
his services in the senate will end
March 4. His letter, therefore, even
if made public, can have no effect, other
than to ease the minds of some
standpat senators who are inclined
to vote for the Canadian agreement
against their convictions.

Soon after the Canadian agreement
was sent to congress and it was re-
ported there was little chance of ac-
tion in the senate at the present ses-
sion, President Taft wrote to Senator
Aldrich. It is understood the execu-
tive urged the veteran tariff bill
water to come back and take charge
of the fight for the measure in the
senate.

Senators who discussed today the
statement issued by Representative
McCall following his Sunday inter-
view with President Taft, construed
it to mean that an extraordinary ses-
sion of congress surely will be called
by the president in the event that the
senate fails to act on the agreement
and the statement was issued with
the president's sanction and direc-
tion. There is no doubt that it will
some senators with consternation,
while some others felt that it was
only a gentle reminder from the
White House that the big stick was
still in working order.

Heatings on the McCall bill to car-
ry out the provisions of the Canadian
reciprocity agreement have begun by
the senate committee on finance.
John Stranahan of Neenah, Wis., a pa-
per manufacturer and former lieuten-
ant governor of his state, opposed the
bill, charging that false sentiment in
favor of it had been manufactured
by a league of newspapers which he
believed to be in violation of the
Sherman anti-trust law.

John Norris, chairman of the paper
committee of the American Newspaper
Publishers of America, heard Mr.
Stranahan's testimony. He said that
later he would have something to say
on the subject himself.

Mr. Stranahan's statement contain-
ed the following arguments:
That this country has no more need
for Canadian pulp wood than it has

ORIGIN OF Pinkham's Blood Purifier

Lydia E. Pinkham, of Lynn, Mass., succeeded in producing, from the roots and herbs of the fields, Lydia E. Pinkham's Vegetable Compound, the most successful medicine for women's ailments the world has ever known. After she had put this on the market, women began to write her about their health, because they felt a natural delicacy about consulting any man physician regarding these ailments for which the Vegetable Compound is intended.

She soon found that her correspondents often had complications caused by impure, impoverished blood, and she recognized the necessity of having a reliable blood purifier which she could recommend with confidence as

The Best Spring Medicine

Then, as now, there were many blood purifiers and spring medicines on the market, and after looking into them, she found nothing so good as the old home medicine made from roots and herbs, which she had been accustomed to use in her own family, so she had this made up on a large scale, and furnished it to the stores. It has been very little advertised, but has attained a large sale solely on its merits, and is really a wonderful blood purifier and spring medicine.

It is a good, old-fashioned household remedy made from roots and herbs, which has been used from generation to generation for purifying the blood, removing humors and eruptions, and for that all "played out" feeling.

I felt like a new person when I had finished that bottle. We always have some of Hood's medicines in the house." Hilkey Rosalie, Marquette, Mich.

Lowery served as state senator and two years ago had a hard fight to prevent being named as the Democratic candidate in the Eleventh district, now represented by Albert Douglas of Chillicothe. He made a spectacular run down the aisle of the convention hall to avail himself of the nomination.

Lowery was named over a field of five candidates, one of whom, former Judge H. W. Wright of Logan, withdrew in Lowery's favor. The candidates included James McBroom of Logan, who is a brother to the McBroom who was Chief Engineer Marker of the board of public works will remember as having crowded him off the line with a shotgun.

Welch, who died recently; Joseph Ryan of Noble county, to succeed Judge H. L. Ferneding of Dayton, elected to the circuit bench, and C. Z. Crossland, whose term expired; Dr. Oscar Hasenkamp, Lucas county, to succeed W. C. Chapman, and Dr. R. Grube, Greene county, to succeed Dr. D. G. Palmer of Ashtabula county. REP. W. D. FULTON HAS INTRODUCED GOOD ROADS BILL

Carries Appropriation of \$200,000 for State Pikes—Licking Man Says Gettysburg News Unfounded.

Columbus, O., Feb. 21.—Columbus was the scene for the introduction of a bill for the construction of good roads Monday and Tuesday and as a result the bill did a thriving business, reminding the old timers of the days gone by when a senatorial fight was on tap and the leaders of the majority party gathered to assist in a good cause, with this exception at present, members of both parties are on hand, working pro and con, heart and soul, for and against a measure which today is creating more interest over the state than any other of recent years.

Caucuses were held last night in the various committee rooms and by several of the hotels, but the result is in doubt and will be decided after the roll call for the bill when the debaters have finished. This may possibly be any time between 7:30 and 7 o'clock, as all members will be granted the privilege of the floor, their time, however, being limited to ten minutes each.

A few minutes before 5 o'clock Monday evening Representative W. D. Fulton arose and demanded a call of the house. Doorkeepers guarded the doors and all members present were forced to respond. Many members crowded around the Licking man and asked his object in the unusual procedure. His reply was that it was merely a move to have the call at that time and place the members on record so that they would have no excuse for staying away from the Dean vote this afternoon. It was a clever move and proved Fulton's watchfulness of all parliamentary rulings.

Mr. Fulton Monday evening introduced a bill appropriating \$200,000 for the construction of a system of national roads through Ohio. He also introduced the Barbers' bill and has several others ready for the legislative hopper. The Licking legislator is a power on the floor of the house and his assistance is sought by many fellow members.

Mr. Fulton is chairman of the committee on federal relations of the house of representatives and yesterday scored those responsible for the publication of a plan said to have been adopted by the committee, covering the redistributing of the state.

"We have never held a meeting of that body," said Chairman Fulton, "and there has been no plan agreed upon by us. What has been published, I suppose, is a tentative draft gotten up by somebody who is interested. There are a dozen such plans floating about. When we do get together and formulate a bill, some of the congressmen down there will not be so facetious."

Mr. Fulton is especially apt at the dictation that certain political leaders are dictating to the congressmen to help their interests and punish their enemies. He has special reference to the unfounded story that Chairman E. W. Hanley is figuring on a scheme which will put Congressman J. J. Whitacre of Canton out of business because he was Pomerene's manager.

"There is not a grain of truth in that story," he said with emphasis. "We must wait in the first place, until we get the ratio of representation. After that it will be time enough to consider tentative and other plans."

Dairy and Food Commissioner R. R. Dunlap spent his last day in his office, his term expiring at midnight. Tomorrow his successor, Sylvanus F. Strode of Geiton, will assume charge. With practically an entirely new department staff, only one employee being retained—a former bookkeeper, Mr. Dunlap served three terms and made an excellent record. He proposes to resume farming near Kingston, Pickaway county. He was tendered a banquet at noon by the Business Men's Club, and an evening at a local hotel by his office force.

The election of United States Senator Alvie Pomerene and all other acts of the present session of the legislature are legal and binding upon the state, regardless of the outcome of the suit filed in the Ohio supreme court to test the legality of the present session, according to the brief filed by Attorney General Timothy Hogan.

In his answer to the suit which was filed last week by Treasurer Creamer, Hogan refused to honor a voucher authorized by the present session on the ground that the session is unconstitutional. Mr. Hogan cites several supreme court decisions to support his contention.

Women's Secrets
There is one man in the United States who has perhaps heard more women's secrets than any other man or woman in the country. These secrets are not secrets of guilt or shame, but the secrets of suffering, and they have been confided to Dr. R. V. Pierce in the hope and expectation of advice and help. That few of these women have been disappointed in their expectations is proved by the fact that ninety-eight per cent. of all women treated by Dr. Pierce have been absolutely and altogether cured. Such a record would be remarkable if the cases treated were numbered by hundreds only. But when that record applies to the treatment of more than half-a-million women, in a practice of over 40 years, it is phenomenal, and entitles Dr. Pierce to the gratitude accorded him by women, as the first of specialists in the treatment of women's diseases.

Every sick woman may consult Dr. Pierce by letter, absolutely without charge. All replies are mailed, sealed in perfectly plain envelopes, without any printing or advertising whatever, upon them. That few of these women have been disappointed in their expectations is proved by the fact that ninety-eight per cent. of all women treated by Dr. Pierce have been absolutely and altogether cured. Such a record would be remarkable if the cases treated were numbered by hundreds only. But when that record applies to the treatment of more than half-a-million women, in a practice of over 40 years, it is phenomenal, and entitles Dr. Pierce to the gratitude accorded him by women, as the first of specialists in the treatment of women's diseases.

Every sick woman may consult Dr. Pierce by letter, absolutely without charge. All replies are mailed, sealed in perfectly plain envelopes, without any printing or advertising whatever, upon them. Write without fear, as without fee, to World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.

OBITUARY

SAMUEL SCHNAIDT.

Samuel Schnaidt, one of Newark's oldest and most highly esteemed German-American citizens, died at his home, 153 South Fifth street, Monday evening at 7:30 o'clock, after a short illness of the grip.

The deceased was born in Untertisingen, Wurtemberg, Germany, Sept. 28, 1828. He came to America in 1855 and settled in New York, where he remained for one year, when he came to Newark. He was married to Caroline Seibold on April 23, 1862, and from this union eight children were born, George, Frederick and Andrew dying at a tender age.

He is survived by his widow, three sons, Henry J., Edward I., and Samuel S. Schnaidt and two daughters, Carrie E. and Dora L. Schnaidt, and one sister, Mrs. Mary Hermann.

The deceased was a member of Olive Branch of Odd Fellows, No. 24, and of Mt. Olive Encampment No. 12, and was the oldest Odd Fellow in the city at the time of his death, having become a member in 1869. He was also a member of the German Lutheran church.

The funeral will be held under the auspices of the Odd Fellows at the German Lutheran church on Thursday afternoon at 2 o'clock, the services being conducted by the Rev. Mr. Saffran, and the interment will be made in the Cedar Hill cemetery.

MARTHA BAIRD.

Mrs. Martha Baird, aged about 65 years, wife of Aaron Baird, a farmer living about 2 1/2 miles southeast of Black Hand, died at 9 o'clock Tuesday morning after an illness of a couple of weeks with pneumonia. The deceased leaves two sons and three daughters. No arrangements have yet been made for the funeral.

for Canadian disease germs; that spruce is not necessary to paper making, as any wood which has a fiber will suffice, and there are many woods which are better than spruce; that the first of the northwest make excellent pulp, and that there is nothing better than the soft woods of the south.

In connection with his statement about the timber of the south Mr. Strange said that if the Democrats knew what they were about they would make them the future paper makers of the country.

Mr. Strange declared that Wisconsin, Minnesota and West Virginia in 20 years will be growing enough for all the mills of the country; and that paper making is just developing in the south through the utilization of timber unfit for lumber.

These statements were brought out chiefly by questions from Senator Hale, whose evident purpose was to show that Canadian timber for paper making is not needed in this country; that there is sufficient standing timber for immediate needs, with conservation already taking due care for the future.

Mr. Strange asserted that the agreement could not cheapen paper and would only transfer the paper making industry to Canada.

Senator Bailey, who is opposed to the reciprocity agreement, was a caller at the White House. As he left the executive offices he said he would not oppose consideration of the McColl bill and that if it were defeated it would be by Republicans. He declared his intention, however, to vote against it.

GRAY HAIRS BANISHED.

The old idea of using sage for darkening the hair is again coming in vogue. Our grandmothers used to have dark, glossy hair at the age of seventy-five, while our mothers have white hair before they are fifty. Our grandmothers used to make a "sage tea" and apply it to their hair. The tea made their hair soft and glossy and gradually restored the natural color. One objection to using such a preparation was the trouble of making it, especially as it had to be made every two or three days on account of its soiling quickly. This objection has been overcome and by asking almost any first-class druggist for Wyeth's Sage and Sulphur the public can get a superior preparation of sage, with the admixture of sulphur, another valuable remedy for hair and scalp troubles. Daily use of this preparation will not only quickly restore the color of the hair but will also stop the hair from falling out and make it grow. It is sold by all druggists for 50c and \$1.00 a bottle, or is sent direct by the Wyeth Chemical Company, 74 Cortlandt St., New York City, upon receipt of price.

For sale and recommended by F. D. Hall, druggist.

SHE LEARNED SOMETHING.

"This is a fine coffee," said the visitor to her hostess; "how do you make it? I make mine so and so, but it never tastes like this." "Well," replied the hostess, "I make this the same way, but I've learned something. Maybe you don't keep your coffee pot clean—that is, I mean maybe you use common kitchen soap. I use Hewitt's Easy Task soap. It's pure and clean and white, and costs the same as the poor kinds. Then, too, it makes a nickel-plated coffee pot shine like silver."

AMUSEMENTS

"THE ROSARY."

Direct from its successful three months run in Chicago, "The Rosary," a beautiful new play from the pen of Edward E. Rose and produced by the well known theatrical managers, Messrs. Rowland and Clifford, will be presented at the Auditorium theatre next Wednesday, February 22, matinee and night.

One can see the effect of thought upon the different individuals who witness the performance. One character is that of a business man who is happily married to a wife who loves him, but his thought is wrong. He harbors fear, doubt, and unbelief in the good that lies all around him. He loses all—fortune, home, wife, even his own self-respect.

How does it all end? Go and see "The Rosary."

"BILLY, THE KID."

The negro order of the ante-bellum days attached to his old colonel is one of the many cleverly drawn types in Joseph Sanley's new play, "Billy, the Kid," which is one of the great big successes of the present year. All of the types are said to be exceptionally well drawn and the play reads in human interest. "Billy, the Kid" will be seen at the Auditorium theatre, Friday, February 24.

"THE WOLF."

Those who see "The Wolf" at the Auditorium theatre, next Saturday, February 25, matinee or evening, will find themselves in the vast woodlands of Northern Canada, where the breezes are fragrant of pine. It is autumn, and the scene that is laid before the eye is the clearing in front of the house of old MacTavish. His is a lonely home. There only lives with him his daughter, golden haired Hilda.

"THE BLUE MOUSE."

The latest humor-cure for the blues or any ailment of the "melancholy tract" is given by Dr. Smiley, a half brother of Sunny Jim as follows:
(1) Open the windows.
(2) Then telephone for seats for "The Blue Mouse."
There have been more cures—how ever, that is another story.

"Blue Mouse" is the latest creation of Clyde Fitch, and is aimed to produce laughter by its very means. And if the run of the farce at the Lyric theatre in New York may be taken as a criterion it is safe to predict that "The Blue Mouse" will meet with popular favor wherever it is seen.

For the first time "The Blue Mouse" will be seen at the Auditorium theatre, Monday, February 27, for one performance.

FROM "THE ROSARY"
Which Will Be an Auditorium Theatre Matinee and Night, on Wednesday February 22.

ORPHEUM.

The vaudeville show at the popular Arcade playhouse this week has proved to be another great success. There is really no gap, headliner, but four, as every act seems to be the best from vaudeville. Linney, Griffin and Emmert, in an excellent comedy sketch, entitled "Her Husband's Friend," are keeping their audiences roaring all the time. Every moment of their act is full of life and comedy. Miss Mina Griffin is very pleasing, and carries an excellent wardrobe, which helps to make the skit one of the best ever seen in the house. Not one can afford to miss them.

DEBILITY AND RHEUMATISM

This Maine Woman Was Cured of Both By Dr. Williams' Pink Pills and Is Enthusiastic in Her Recommendation of the Remedy.

Whenever the blood becomes thin and watery or impure, the whole system suffers, energy is lacking, vitality is low and the victim falls an easy prey to many diseases which happen to be prevalent. To keep the system in normal condition, the appetite good, the step vigorous, the brain clear and the muscles strong, a tonic is sometimes necessary. With the body thus toned up and the organs active there is a greatly reduced danger from prevalent diseases since the germs are overcome and passed off as nature intended they should be.

The tonic used should be efficacious and at the same time safe and harmless for the weakest constitution. Such a remedy is Dr. Williams' Pink Pills. The experience of Mrs. James F. Meynell, of Sullivan, Me., with this blood-making medicine is given in her own words, as follows:

"My reason for recommending Dr. Williams' Pink Pills to others is that they saved me from a long illness and probably from consumption a few years ago. When teaching a country school I became so completely run down that I could not attend to my duties. My appetite failed me and I became so weak that it was with great difficulty that I could walk upstairs. I had palpitation of the heart and was short of breath. I also lost in weight.

"The people with whom I boarded recommended Dr. Williams' Pink Pills. I gave the remedy a trial and soon felt my strength returning. In a short time I was perfectly well.

"About three years ago I again took Dr. Williams' Pink Pills. I had been suffering from rheumatism for several months. The disease had settled in the joints all over my body. I could just get around the house by the aid of a chair. The pains were so sharp that I could hardly keep from screaming. I suffered all through the summer until early fall. As the doctor did not help me, I again turned to Dr. Williams' Pink Pills. I gradually got better and took the pills until cured and have had no return of the rheumatism since."

Dr. Williams' Pink Pills are sold by all druggists, or will be sent, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50, by Dr. Williams' Medicine Company, Schenectady, N. Y.

INDIAN MESSIAH RAVING MANIAC

Died at His Home Near the Indian Agency at Lapwai, Idaho.

Spokane, Wash., Feb. 21.—Drinking copiously of liniments and a concoction of alcohol and cocaine, used by the Indians as a hair restorer, proved the undoing of George Moses, friend of the early white settlers in eastern Washington and Oregon and northern Idaho and foremost in the councils of the Nez Perce tribe.

Moses, who a few days before had proclaimed himself a Messiah, died a raving maniac in his home on Tom Beall creek, six miles from the Indian agency at Lapwai, Idaho, a few days ago. He was roped and strapped to his bed when the end came. Mrs. Moses, who also had used the drugs, is violently insane and may not recover.

Funeral services over the dead headman were accompanied by the ceremonials of the tribe. The sermon was delivered by Rev. James Hayes, a native pastor of the Indian church, in Indian Presbyterian church at Joseph. The funeral was attended by Indians from many parts of the Northwest, also many white men and women. Burial was made in the little cemetery on the bank of the Clearwater river, within a few feet of the grave of Rev. Henry H. Spalding, pioneer missionary, who came west with Dr. Marcus Whitman.

Several days before his death Moses, while posing as "king of the kings," summoned the Indians to his throne and pronounced judgment on each, decreeing that some should be blessed and others consigned to purgatory. Many of the Nez Perce Indians believe that Moses was possessed of supernatural powers.

Moses was looked upon as second to Chief Joseph declared to be the ablest man the Nez Perce tribe has produced. He was identified with the Lapwai faction, which refused to join Chief Joseph in the hostilities against the whites in 1877-8, when the reds led Gen. O. O. Howard such a lively chase in the Northwest.

The banquet is being prepared by the ladies of the Baptist church which is a guarantee of its excellence, and will be held in Cleveland hall on Friday night, February 24. The committee having the matter in charge, has been busy with the details for some time, and now have all the plans for the evening about formulated. As stated above, the women of the Baptist church will serve the banquet, and there will be suitable speakers for the evening, while first class music will be provided.

"ORPHEUS" PROVED VERITABLE FROST

New York, Feb. 21. — Hundreds of New York men felt deeply aggrieved today against Isadora Duncan, the dancer. With all sorts of excuses they flocked to Carnegie hall to witness her terpsichorean art lured by the reports of the next-to-nothing costume that she wore in her previous appearance. Many were armed with opera glasses resembling ship captains binoculars, but Isadora was very aggravating. In her "interpretation" of Gluck's "Orpheus" she wore clothes of an opaqueness to which even Anthony Comstock could not have objected. Consequently "Orpheus" proved a huge frost.

Ladies' Sanative Wash.

A prominent physician recommends the following formula as a perfect dressing to women who need a thorough-acting antiseptic sanative wash by injection or douche, for leucorrhoea, etc.

Obtain the ingredients separately and mix at home, if any embarrassment is felt. Get 2 ounces of antiseptic vilans powder, 1 ounce tannic acid and 1 ounce sulphate of zinc. Mix thoroughly and use (teaspoonful) to a quart of warm water, as a douche or injection for diseased conditions. Cold water may be used for a simple cleansing sanative wash whenever needed. Its action destroys microbes, disease germs, etc. Tonics upon the mucous membrane and keeps the parts in a healthy natural condition.

When used once by women it takes its place in her regular necessary toilet articles, because of its reliability and effectiveness.

Free for Stomach and Bowels

We are in receipt of letters from Mrs. Eva Gaskins, 304 Madison St., Topeka, Kans., and Mr. P. H. Gavelas, Wagoner, Okla., as well as many others, telling about the wonderful results they have secured in the cure of their stomach and liver troubles by the use of Dr. Caldwell's Syrup Pepsin.

This remedy, as all readers doubtless know, has been before the public for a generation and is now being more extensively used than any other remedy for stomach, liver and bowel complaints. According to reliable testimony, it seems to be a very quick and lasting cure for constipation, indigestion and dyspepsia, liver trouble, biliousness, flatulency, sour stomach, gas on the stomach, drowsiness after eating and similar disorders. It is a liquid with tonic effect, and so mild and gentle in action that a child as well as a grown person can take it, in fact, it has no equal for children, women and old people.

It increases the flow of gastric juice, and by a regular action trains the stomach and bowel muscles to again do their work naturally, and in time medicines of all kinds can be dispensed with. A few simple bottles can be had for trial by sending your address to the doctor for this way Mrs. Gaskins, Mr. Gavelas and many others have secured the cure. Later, when satisfied it is the remedy you need, do not order a small bottle, but get the large one at fifty cents and one dollar a bottle.

Dr. Caldwell does not feel that the purchase of his remedy ends his obligation. He has specialized in stomach, liver and bowel diseases for over forty years and will be pleased to give the advice of his long experience and subject free of charge. All are welcome to write him. Whether for the medical advice or the free sample address him Dr. W. B. Caldwell, 51 Caldwell building, Monticello, Ill.

DEAN BILL

(Continued from Page 1.)

United States Senatorship, which was decided by a solitary vote, the history of legislation for the past 20 years does not disclose a more doubtful contest.

The pronounced victory of the liberals in the Senate and their superior organization gives them whatever advantage there may exist, which is slight and uncertain. This is met by the veteran corps led by the temperance generals who have the experience gained from many legislative campaigns.

Another factor is the solidarity of many of the Democratic leaders lest action at this time will be injurious to the party and its prospects.

In the use of this argument by these solicitors persons the name of Governor Harmon has been brought into the question and he has been appealed to by both sides of the controversy to use his influence to decide the issue in their favor.

Much has been made of the attitude of his campaign manager, Hugh Nichols of Clermont county, but it is to be remembered that this individual has been on the dry side in the local option question for many years.

Another element that has operated to cloud the outcome is the open endeavor of members of the Assembly to utilize the desire of the liberal organi-

zation to enact the law to help their own legislative schemes. The most prominent of these emanate from Cleveland.

The delegation from that city is zealous in the endeavor to enact the Stockwell bill, providing for the Oregon plan for the election of United States Senators. This measure is being held up in the Senate by a coterie of conservative senators, of which Thomas A. Dean of Fremont, the author of the local option bill, is one.

Threats were made that the delegation in the House would vote against the liquor bill unless the Stockwell bill was released. In the Senate an effort was made to dislodge it, but the effort failed. Through a fortuitous chance Senator Dean was not present and was therefore not compelled to go on record, which he said the motion was primarily intended to make him do.

He has refused to listen to these threats, which he has denounced as masked bribery.

At midnight the Cleveland delegation was in caucus at the Hartman Hotel discussing what action it should take today. The indications are that it will make an effort to have the vote on the Dean bill postponed until some future date, knowing that its support is absolutely essential to the passage of the measure.

Authoritative statements were made late last night by representatives of both sides that there will be no postponement. The bill has become a source of irritation personally to the members and is a legislative obstruction that must be speedily removed if there is to be work done upon other public necessities.

The temperance forces properly assume that they can gain nothing by delay, as the Cleveland members are certain, they say, to support the amendment when the time comes for final action.

Friends of the new State Normal School proposition, which has passed the House, and is being fought in the Senate by Mr. Dean, have also made overtures of opposition unless his opposition is withdrawn.

Neither side will admit that it favors the amendment to the bill providing that the exemption shall apply only to such municipalities as are cities. Yet this proposition has many supporters in both camps. It will give Newark, Zanesville, Springfield, Portsmouth and East Liverpool, as well as some smaller places where the local option situation is acute, the desired opportunity for a separate vote.

The temperance advocates are vehement in the statement of repudiation, but this is confined to the leaders on the liberal side; the rejection is not so emphatic and it is a fair presumption that it will be accepted in the event that it is found necessary to take it in order to save the entire bill from defeat. It is known that the amendment is prepared and in the hands of a strong advocate of this compromise.

While temperance forces insist that their adversaries intend to use money there has yet developed nothing that would justify the charge of bribery.

In fact, this fight has been remarkably free from scandals that marked past contests of this character. One of the rumors, and there are many, is that there is today to be what is known as a "grandstand" play on the part of the "dry" forces.

The story comes from the liberals, and is to the effect that they have been informed that a member is to rise and announce with a flourish that he has been corruptly approached, exhibiting as he does so the wad of greenbacks given him. The supporting details are shadowy, and the yarn is given for what it is worth. It is known though, that detectives have been at work since the contest began.

The debate today is expected to be more or less formal and will scarcely affect the result. Speaker Vinson announces that it is to be free and unrestricted, and that no motion for the closure will be entertained unless the House signifies in the most marked manner that it is ready for a cessation or oratory or filibustering. It is also expected that several of the members now regarded as doubtful will seek the privilege of explaining their votes.

Final preparations were made in the House of Representatives today, for the debate today. On motion of Representative Smith Welch of Ottawa, chairman of the Temperance committee, the galleries were set aside for the use of the members and the Sergeant-at-arms was directed to furnish each Representative with two tickets.

The Senate resolved to meet at 10 a. m., in order that members might be present at the debate, and they were granted an extra ticket each. On motion of Representative Black of Ashland speeches were limited to ten minutes each. Members speaking twice were limited to five minutes on the second round. Sergeant-at-arms W. L. Melching is preparing for a crush and extra assistants will be given the doorkeepers. The debate is set for 2 p. m., and is expected to last several hours.

HEALTH AND BEAUTY ADVICE

BY MRS. MAE MARTIN.

Grateful: (1) I am glad you like my catnip shampoo recipe. Do not use more than two teaspoonfuls of catnip in water, as that is sufficient to thoroughly cleanse the scalp and make the hair soft and glossy. (2) I cannot recommend a face powder with talcum in it, as it would suggest trying the following, which is the most delightful toilet preparation you can use. Get four ounces of apricot oil and mix with one ounce of hair oil in half pint of hot water, then add two teaspoonfuls glycerine, shake well and let cool. Use this instead of powder. It will clear the pores and give the skin a smooth and satiny feeling impossible with powder. This inexpensive toilet preparation acts as a complexion beautifier, and the sallow, thrice-colored skin will turn to a rosy glow to a ruddy glow of youthful health.

Here: Your embarrassment over the downy growth of your face will be reduced. If you will use a little powdered talcum, get from the drug-gist an ounce of powdered talcum, and with a little milk enough water to make a paste. Spread thickly on your face, the hair and let remain two or three minutes, then remove and wash the skin carefully. While talcum is a little expensive, it is a true skin beautifier, and a second application necessary. To insure results, be careful to get the pure talcum.

Here: Cold weather should not be an excuse for neglecting the hair and scalp. The reason you always wash cold after a shampoo is because the mixture you employ to remove the dirt from the hair follicles of their oily secretion. This causes the scalp to become dry and hard and makes the hair brittle and difficult to manage. Spread thickly on your face, the hair and let remain two or three minutes, then remove and wash the skin carefully. While talcum is a little expensive, it is a true skin beautifier, and a second application necessary. To insure results, be careful to get the pure talcum.

Here: Your husband has a right to object to your using greasy creams. Such treatment will not overcome an oily complexion, but if you prepare the following: Get a half pint of alcohol, an ounce of quinine, one-half ounce of glycerine, and one-half ounce of rose water. Shake well and use. Get an ounce of alcohol from your drug-gist and dissolve in half-pint of water.

Here: You ask for a harmless face powder. The only reliable one I know is the paraffin recipe, which is inexpensive and easily made. Get from the drug-gist four ounces of paraffin and dissolve in a pint of hot water. The dose is a tablespoonful before each meal, and if these simple directions are followed you will soon regain your normal weight. The paraffin recipe is a true skin beautifier, and a second application necessary. To insure results, be careful to get the pure paraffin.

Here: At your age your eyes should have their youthful sparkle, but they need attention the same as your body. Here is an old and reliable formula for an eye tonic which is inexpensive. Dissolve an ounce of crystals in a pint of warm water. One or two drops in each eye remove foreign particles, relieve inflammation, and it is also good for tired, burning eyes and makes them clear and sparkling. You can get crystals in any drug store.

Here: It is foolish for you to pay a fancy price for quinine hair tonic when you can make a good one at home at trifling cost. It will get an ounce of quinine from the drug-gist and dissolve it in one-half pint of alcohol, then add water to make a pint, you will have as good hair tonic as money can buy. Rubbing the tonic well into the hair roots each night tones and strengthens the scalp and hair and keeps it in healthy condition. You will not be troubled with dandruff or falling hair if you use this tonic, and the hair will grow long, abundant and glossy.
